Professional Experience and Curriculum Vitae
I was born in 1982 and grew up in Richmond. From an early age I was interested in art, and decided I was going to be an illustrator at the age of 5.

I graduated from the University of Brighton in 2004 with a BA in Illustration. Since graduation I have produced commissions for Paperchase, Klutz and You Magazine amongst others. In 2007 my work was featured in Illustration and Play a book on artists who use collage in their work, which also included well known illustrators such as Catalina Estrada and Ian Wright. I'm currently based in South East London.

My work is inspired by fashion, humour, psychedelic 60's art and often just pure fantasy. My pieces have a handmade aesthetic by using a variety of materials including coloured card, paint and fabric. By using bright colours and organic elements my work always has an uplifting feel and although it sounds cheesy I hope my work brightens up someone's day.
