Professional Experience and Curriculum Vitae

Walker Ballantyne - Hill is an illustrator with a small obsession for found objects, lettering and penguins. When she isn't drawing, furiously clicking away at vector renderings, painting on found objects or obsessing over hand lettering she can be found pouring over children's books and cycling the streets of Toronto.

Educated at The School of Art, Central Technical Institute in Toronto before going on to OCAD University Illustration program; She now works as a freelance illustrator with a wide range of experience. Pattern design, children's illustration, lettering, advertising always done with an distinct style, and an eye for quality.

To discuss working together or if you have any other business enquiries please email me at: walker.ballantyne@gmail.com
