Professional Experience and Curriculum Vitae
Wai Hong was born and lives in Singapore.

As soon as he could hold a pencil, Wai Hong had been drawing dinosaurs, super-heros, cartoon characters. That developed into doodles in notebooks, textbooks, and whatever was available at that time. Though never formally trained in arts, he has built up a certain "touch" to his drawings.

Now, he continues to refine his skills. "Each time you draw a picture, you get better at it!"
