Professional Experience and Curriculum Vitae

I was very nervous when I had to write my admission essay. My parents were pushing on me and that made me worry even more. They wanted me to be a great lawyer, to stay away from boys and parties and focus only on assignments. Unfortunately for them, I didn't enroll. They got me out of the house. I didn't disappoint at all. I built my future without them and I even can say thanks for what they did.
