Professional Experience and Curriculum Vitae

Living in Colorado for many years I have grown to love the film industry, along with all the post production aspects involved. I have been in the field for 8 years now, with a Bachelor of Fine Arts in Post-Production from University of Colorado. My experience ranges from working as a media intern, development intern, assistant editor, senior editor and post production manager from the Midwest to the east coast. My knowledge of film and video in such atmospheres would greatly contribute to the success of your company or private operation. I am available for on-site and remote freelance work. My resume further highlights my experience and references in more detail. If you like the work you see, please contact me for availability and rates.

Previous Clientele
