## Professional Experience and Curriculum Vitae

Hi, I'm Vita, a webdesigner, illustrator and front-end developer from the Netherlands.

I'm very interested in usability and user experiences, and I love making creative designs that work.

With my illustrations I like to put that little bit of extra effort into a design which makes it stand out from the crowd.

I read a lot of books and blogs about persuasion and usability and I do my best to implement the latest techniques in my designs and experiment with the results in conversion.

My coding is all according to W3C standards, and I like to keep it clean and fast. I work with HTML, CSS, Javascript, PHP, XML and I develop websites in Drupal, Magento, Wordpress and Plone.
