**Professional Experience and Curriculum Vitae**
Of French and Chinese (Hakka from Indonesia) descent, I grew up in Paris at the beat of art house screenings and fashion weeks. Upon graduating in political science while a fashion buyer, I moved to Singapore for an independent film, and to Hong Kong in television and video, then Taiwan in magazines, satellite television, internet, and photography exhibitions throughout South East Asia.

Back and forth between Paris and Asia, I bring together my loves for film, art, music and fashion in cross-media branding and production.

**Previous Clientele**
