INITIATIVE

To continue to grow as I leverage and share design and development experience within a collaborative team environment as a web site/graphic designer/developer.

HIGHLIGHTS OF QUALIFICATIONS

- Strong project management skills developed through years of experience working within teams to design, develop, and deploy interactive and print projects that champion the user experience and achieve client goals through meaningful, focused collaboration.
- Extensive interactive and print design, development and production experience creating solutions that are clean, efficient and dynamic - to champion the user experience and sell.
- Excellent interpersonal communication, customer service, and sales skills developed and honed through practical experience and years of freelance and full-time experience with a wide variety of clients, coupled with a constant desire to learn, grow and share knowledge with others.
- Many years of experience on the Mac and PC platforms learning and utilizing industry standard tools
