Professional Experience and Curriculum Vitae
Zara S. Alston is a freelance writer with multiple passions. You can always find her in a corner as she types about advertising, interior design, home cleaning and improvement, home making and DIY, art and the metaphysical. When the keyboard has left her hands, you can find Zara with a camera, book or on the yoga matt. Nature calls to her as do long walks, meeting new people and walking dogs on the beach. Her definition of sleep is “a waste of time”, but this probably has to do with the coffee mug she never lets out of her sight.
